

4/12/21 – MAD on a Graph

Essential Question:

How do I calculate MAD when given a graph?

Objective:

I can calculate mean absolute deviation.

Classwork:

1. Mindset – IXL Diagnostic
2. MAD on a Graph
3. IXL CC.5 Calculate mean absolute deviation

Homework:

- Make sure your notes are complete
- Complete IXL CC.5 Calculate mean absolute deviation

If you are absent:

- * You will need to complete your notes
- * You will need to complete IXL CC.5 Calculate mean absolute deviation
